

Bhoomii India Packwell Pvt. Ltd.

## Air Bubble Roll & Air Bubble Bags

### Applications

#### 1. Electronics & Fragile Items Protection

Ideal for packing mobile, tablets, laptops, & other delicate gadgets during shipping.

#### 2. Glassware & Ceramics Industry

Prevents breakage of glass bottles, crockery, mirrors, and fragile showpieces.

#### 3. Automobile Spare Parts

Used to wrap headlights, plastic trims, indicator covers, and other scratch-prone components.

#### 4. E-commerce & Courier Packaging

Provides cushioning for products being shipped via courier or online orders.

#### 5. Furniture & Interior Items

Covers for wood furniture, mirrors, and home décor items during transport or relocation.

#### 6. Medical Equipment

Protects precision instruments, glass vials, & sensitive tools in transit.

#### 7. Industrial Components

Wraps sharp-edged, painted, or polished metal or plastic parts to avoid surface damage.
