

Bhoomii India Packwell Pvt. Ltd.

## PP Box Strapping Roll

### Applications

Polypropylene (PP) Box Strapping Rolls are commonly used in light to medium-duty packaging operations for carton sealing, bundling, and unitizing. Applications vary based on grade

#### Manual Grade PP Strapping:

Used with hand tools and buckles for manual packaging for Small warehouses, Local deliveries, Light-weight carton sealing

#### Semi-Automatic Machine Grade PP Strapping:

Used with semi-automatic strapping machines for faster operations for Medium-volume packaging lines, Export packaging units, Food & pharmaceutical boxes, Electronics and appliance packaging

### Specifications

#### Parameter

#### Manual Grade

Material:	Virgin or recycled Polypropylene
Width:	9mm, 12mm, 15mm and 19 mm
Thickness:	0.5 mm – 1 mm
Breaking Strength:	40 kg – 120 kg (varies by size)
Roll Length:	500 m – 1200 m
Core Size:	200 mm (standard), also available in 150 mm
Color:	White, Blue, Yellow, Green, Custom
Surface Finish:	Embossed or Plain
Printing:	Available with company logo or product branding

#### Semi-Automatic Grade

Material:	Virgin Polypropylene (high machine compatibility)
Width:	9mm, 12mm, 15mm and 19 mm
Thickness:	0.5 mm – 0.8 mm
Breaking Strength:	60 kg – 150 kg
Roll Length:	1000 m – 3000 m
Core Size:	200 mm or 230 mm (machine-compatible)
Color:	Blue, White, Transparent, Custom
Surface Finish:	Embossed (for better grip in machines)
Printing:	Available on request

### Advantages

- Lightweight & Economical: Cost-effective solution for everyday packaging needs.
- Corrosion-Free: Unlike steel, PP straps do not rust or stain the product.
- Eco-Friendly Options: Available in recyclable and biodegradable variants.
- Customizable: Can be color-coded or printed with logos for brand identity.
