

Bhoomii India Packwell Pvt. Ltd.

Applications

1. Fresh Fruit Export Packaging

Used for packing apples, mangoes, grapes, pomegranates, bananas, etc. for international shipment.

2. Domestic Long-Distance Transportation

Safe packaging of fruits for interstate supply chains and wholesale markets.

3. Cold Storage & Refrigerated Logistics

Suitable for storing fruits in chilled and humid environments.

4. Retail-Ready Fruit Display Boxes

Custom boxes for supermarkets and fruit retail counters.

Specifications

Parameter	Specification

Sheet Thickness:	3 mm to 5 mm (as per fruit type and load)
GSM (Grammage):	500 to 1000 GSM
Standard Sizes:	Customized (e.g., 400x300x150 mm, 500x325x200 mm)
Color Options:	Natural, White, Blue, Green, Yellow (UV stabilized)
Weight Carrying:	5–15 kg depending on box design
Printing Options:	Logo, product details, and export labels (screen/UV)
Ventilation Holes:	Optional — for airflow and freshness
Stacking Design:	Nestable/foldable with locking flaps or lids

Advantages

- **Waterproof & Moisture-Resistant:** Ideal for cold chains and wet handling areas, unlike corrugated cardboard.
- **Hygienic & Washable:** Does not absorb liquids, easy to clean and sanitize, compliant with food-grade standards.
- **Strong & Durable:** Withstands compression & stacking pressure during export transport.
- **Lightweight:** Reduces shipping cost while maintaining strength.
- **Reusable & Recyclable:** Long life span compared to traditional boxes, environment-friendly.
- **UV & Chemical Resistant:** Suitable for outdoor loading/unloading and fumigation conditions.
- **Customizable & Attractive:** Can be printed with branding, grade marking, and export data.
